## VA Palo Alto Cath Lab - Amendment 1 Changes

### Structural

#### SS121

Notation has been added to the Second Floor Framing Plan clarifying the extent and depth of the new slab depression for the GE Monopour system.

#### SS124

Mechanical unit locations have been shifted to match the Mechanical revisions. Structural blocking beam locations have been revised accordingly.

#### Calculations:

Mechanical unit anchorage calculations and checks of the existing beam capacities have been revised for the new equipment weights and locations.
